

Ayush Shukla UI/UX Designer

✉ ayushshuklats@gmail.com ☎ 9027223713 📍 Meerut, India 🔗 <https://ayushshukla18.framer.website/>

Profile

UI/UX Designer with 2+ years of experience designing web and mobile products using Figma, wireframing, and prototyping. Strong in creating user-friendly interfaces and collaborating with cross-functional teams. Designed modern, conversion-focused user experiences for startups across domains like recruitment & helper hiring platforms, healthcare & wellness, video sharing, and SaaS platforms.

Professional Experience

1. SeekHelpers, UI/UX Designer - Full-Time

- Designed UI/UX for a mobile app and responsive website using user flows, wireframes, and high-fidelity designs.
 - Created **100+ responsive screens** with consistent layouts across devices.
 - Collaborated with product managers and developers to deliver scalable design solutions.

01/2025 – 04/2026

2. fyp.life, UI/UX Designer - Internship

- Led UI/UX design for a mental wellness website with clear user flows and structure.
 - Designed wireframes and high-fidelity UI in Figma with focus on accessibility and navigation.
 - Improved user experience by testing designs and applying feedback for better clarity.

09/2024 – 02/2025

3. Vlippr, UI/UX Designer - Internship

- Designed **150+ mobile app screens** and **10+ websites** with consistent UX patterns.
 - Worked on mobile apps, including a voice-cloning app, focusing on interaction design.
 - Created clean UI layouts to improve usability and support better conversions.

03/2024 – 08/2024

Projects

1. SeekHelpers – Website & Mobile App 🔗, <https://www.seekhelpers.com/>

Primary Goal - To make hiring domestic helpers **simple, clear, and trustworthy** for users.

Main UX Problem - Users were confused by the hiring steps and long forms.

Design Decision - I simplified the flow into **clear steps** and designed **separate journeys** for employers and helpers.
2. fyp.life – Responsive Website 🔗, <https://www.fyp.life/>

Primary Goal - To create a **calm and easy-to-use** mental wellness website.

Main UX Problem - Users found navigation and content **hard to understand**.

Design Decision - I reorganized the content and designed a **clean, responsive layout**.
3. Pinpoter – Responsive Website 🔗

Primary Goal - To help users easily move their saved places from one Google Maps account to another.

Main UX Problem - Users had to import places manually and often lost track of what was already imported.

Design Decision - Users had to import places manually and often lost track of what was already imported.
