

PROFILE

Lead Product Designer with 8 years of experience spanning research, interaction design, systems thinking, and design strategy. Comfortable leading full discovery-to-delivery cycles across consumer and enterprise products on web, iOS, and Android. Deep expertise in generative research methodologies, service design, and cross-functional facilitation. Track record of building and scaling design teams, establishing design operations, and translating complex domain problems into intuitive, validated product experiences.

SKILLS

Design	Figma, Framer, Sketch, Adobe Creative Cloud, Webflow
Research	Generative interviews, diary studies, contextual inquiry, surveys, tree testing, RITE
Strategy	Service blueprinting, JTBD framework, opportunity solution trees, Jobs mapping
Facilitation	Design sprints, discovery workshops, assumption mapping, How-Might-We sessions
Prototyping	Figma Prototypes, Framer (code components), Lottie, Webflow (live prototypes)
Design Ops	Miro, Notion, FigJam, Loom, Linear, Dovetail, Confluence

PROFESSIONAL EXPERIENCE

Lead Product Designer

EdTech Platform (Confidential) | 05/2021 – Present

- Led design for a K-12 adaptive learning product reaching 1.2M students across web and Android tablet; managed a team of 3 designers.
- Ran a 6-week discovery sprint with 35 students, parents, and teachers across 4 Indian states; synthesised findings into a refreshed product vision adopted by the executive team.
- Designed an adaptive assessment system with AI-driven question branching, real-time progress visualisation, and teacher analytics — contributed to a 44% improvement in test completion rates.
- Established design operations: weekly critique rituals, Figma file governance, shared component library with 90+ tokens, and a bi-weekly design-engineering sync.
- Partnered with the ML team to design explainable AI features — surfacing model recommendations in teacher dashboards with confidence indicators and rationale tooltips.
- Facilitated quarterly product strategy workshops with founders and investors; owned the design narrative in 3 Series B fundraising decks.

Senior UX Designer

Enterprise SaaS Company (Confidential) | 06/2018 – 04/2021

- Designed admin, analytics, and automation modules for an enterprise CRM serving 500+ tenants globally.
- Ran comparative usability studies across 8 industry segments; delivered a segment-specific navigation taxonomy that reduced support tickets by 33%.
- Authored a 60-page design system documentation site (Notion + Storybook) adopted by 15 engineers and 4 PMs as the single source of truth.
- Championed accessibility — conducted 12 screen-reader audits; co-wrote an internal accessibility checklist now used in every design review.

UX / Product Designer

Digital Product Consultancy | 07/2015 – 05/2018

- Delivered end-to-end UX/UI for 14 digital products across FinTech, Insurance, Retail, and Government sectors.
- Pioneered service design practice at the consultancy: introduced service blueprinting and journey mapping as standard deliverables on complex projects.
- Facilitated 20+ client discovery workshops and design sprints; built a reusable facilitation toolkit adopted firm-wide.

SELECTED PROJECTS

- Adaptive K-12 Learning Platform (1.2M students)

— Figma, Framer, FigJam, Miro, Dovetail

Discovery-led redesign for student, parent, and teacher personas. AI-driven adaptive assessment, gamified learning loops, offline mode, and a real-time teacher analytics dashboard. Reduced test abandonment by 44%.
- Enterprise CRM — Analytics & Automation

— Figma, Sketch, Tableau (research), FullStory

Self-serve reporting workspace with drag-and-drop chart builder, shareable dashboards, scheduled report delivery, and a no-code workflow automation builder for CRM events.
- Healthcare Service Blueprint

— Miro, Figma, Notion, FigJam

End-to-end service blueprint mapping 16 touchpoints across patient, provider, and admin journeys for a 22-clinic outpatient network; informed a \$8 Cr digital transformation roadmap.

Government Citizen Services Portal — [Figma](#), [Framer](#), [Webflow](#), [Dovetail](#)

Accessible (WCAG 2.1 AA) multilingual portal for 6 state-level citizen services — permit applications, grievance redressal, and benefits tracking. Designed for low-literacy users with iconographic navigation and audio cues.

InsurTech Quote & Policy Platform — [Figma](#), [ProtoPie](#), [Maze](#), [Hotjar](#)

End-to-end redesign of a commercial insurance quote-to-bind flow — reduced quote completion time from 22 to 8 minutes; validated via 3 rounds of moderated usability testing.

EDUCATION

M.Des, Human-Computer Interaction Industrial Design Centre, IIT Bombay	2013 – 2015
B.Tech, Computer Engineering Mumbai University	2009 – 2013

CERTIFICATIONS

- Service Design — Interaction Design Foundation
- User Research Bootcamp — UX Design Institute
- Design Sprint Facilitator — Google Ventures (GV)
- Accessibility Specialist — Deque University (CPACC)
