

Rohan Verma

Senior Frontend Developer (MERN Stack)

PROFILE

Full-stack-oriented Senior Frontend Developer with 7+ years of experience architecting and delivering high-scale responsive web applications on the MERN stack. Deep expertise in React with Redux Toolkit, Server-Side Rendering with Next.js, Node.js microservices, and MongoDB schema design. Proven track record of leading frontend teams, establishing design systems, and driving significant performance improvements across enterprise SaaS, FinTech, and EdTech products.

SKILLS

Frontend	React.js, Next.js 14, Redux Toolkit, RTK Query, TypeScript, JavaScript (ES2022+), Tailwind CSS, Styled Components, HTML5, CSS3
Backend	Node.js, Express.js, REST APIs, GraphQL, tRPC, WebSockets
Database	MongoDB, Mongoose, PostgreSQL, Redis, Prisma ORM
Testing	Jest, React Testing Library, Cypress, Playwright, Storybook
DevOps	Docker, GitHub Actions, AWS (S3, CloudFront, Lambda), Vercel, Nginx
Tooling	Webpack, Vite, Turborepo, ESLint, Prettier, Husky

PROFESSIONAL EXPERIENCE

Lead Frontend Engineer

Confidential Product Company | 07/2021 – Present

- Architected and led the full frontend rebuild of a multi-tenant SaaS analytics platform serving 500+ enterprise clients, migrating from a legacy AngularJS monolith to a React + Redux Toolkit + Next.js codebase; reduced initial load time by 52%.
- Designed and published an internal component library (Storybook + Tailwind) with 120+ reusable components, adopted across 6 product squads and cutting feature delivery time by 35%.
- Introduced RTK Query for server-state management, replacing 8,000+ lines of hand-rolled fetch logic with a uniform caching and invalidation layer.
- Drove a WebSockets-based real-time notification system serving 10k concurrent users with sub-200ms delivery latency.
- Established frontend engineering standards: PR review checklist, accessibility audits (WCAG 2.1 AA), performance budgets, and automated Lighthouse CI gates.
- Managed and mentored a team of 5 frontend engineers — conducted weekly 1-on-1s, quarterly growth plans, and bi-weekly architecture reviews.

Senior Frontend Developer

Software Services Firm | 03/2019 – 06/2021

- Delivered 12+ customer-facing portals for FinTech, EdTech, and Logistics clients using React.js and Next.js with SSR/ISR patterns.
- Built a real-time order-tracking module with Google Maps API and WebSocket push updates, reducing support tickets by 28%.
- Implemented JWT + refresh-token auth flows, RBAC, OAuth 2.0 social logins, and Stripe + Razorpay payment integrations across 4 projects.
- Reduced average bundle size by 41% through route-based code splitting, tree-shaking, and Webpack bundle analysis.
- Introduced Cypress E2E tests covering 80% of critical user flows; caught 15 regressions before production in the first quarter.

Frontend Developer

Early-Stage EdTech Startup | 06/2017 – 02/2019

- Built an adaptive quiz engine in React with branching logic, timed assessments, and real-time score analytics for 20k+ students.
- Developed a live-classroom feature using WebRTC (peer-to-peer video) and Socket.IO (chat + whiteboard sync).
- Integrated a markdown-based course authoring tool with custom preview renderer and media upload to AWS S3.

SELECTED PROJECTS

Multi-Tenant SaaS Analytics Platform — *React, Redux Toolkit, Next.js, Node.js, MongoDB, Recharts, WebSockets*
Enterprise analytics dashboard for 500+ tenants with role-based views, real-time KPI widgets, drill-down reports, CSV/PDF export, and configurable alerting. Handles 2M+ events/day.

Internal Design System — *React, Tailwind CSS, Storybook, Chromatic, Figma Tokens*
120-component design system with semantic design tokens, dark-mode support, WCAG 2.1 AA compliance, automated visual regression testing via Chromatic, and a documentation site.

E-commerce Marketplace (B2B) — [Next.js 14](#), [tRPC](#), [PostgreSQL](#), [Prisma](#), [Stripe](#), [Tailwind](#)

Full-stack B2B marketplace with SSR product catalogue, multi-vendor checkout, subscription billing, admin order management, and seller analytics dashboard.

Live Classroom Platform — [React](#), [WebRTC](#), [Socket.IO](#), [Node.js](#), [Redis](#), [AWS S3](#)

Real-time virtual classroom with peer-to-peer video (WebRTC), shared whiteboard, live chat, quiz injection mid-session, and session recording with playback.

Internal CMS & Headless API — [React](#), [Node.js](#), [MongoDB](#), [GraphQL](#), [AWS CloudFront](#)

Headless CMS with WYSIWYG editor, media library, granular publishing workflows, role-based content access, and a GraphQL delivery API serving 3 frontend products.

EDUCATION

B.Tech, Computer Science

2013 – 2017

Visvesvaraya Technological University, Karnataka

CERTIFICATIONS

- AWS Certified Developer – Associate
- MongoDB for JavaScript Developers — MongoDB University
- Advanced React & Next.js — Meta (Coursera)
- Node.js Application Performance — Linux Foundation
