

PROFILE

Senior Frontend Developer with 6 years of experience building scalable, high-performance web and mobile applications across AI/ML, e-commerce, and SaaS domains. Expert in translating complex Figma designs into production-grade React.js and React Native interfaces. Deep proficiency in state management, REST APIs, GenAI integrations, and performance optimisation. Proven track record of owning full product cycles — from Figma handoff through deployment — and delivering measurable improvements in user experience and business metrics.

SKILLS

Frontend	React.js, Next.js, JavaScript (ES2022+), TypeScript, HTML5, CSS3, Tailwind CSS
Mobile	React Native, Expo, Redux Toolkit, Context API, React Navigation
GenAI / ML	OpenAI API, vector search, LangChain, Python (ML pipelines)
Backend / APIs	REST APIs, Node.js (basic), FastAPI, WebSockets
Design	Figma (design handoff, prototyping), responsive grid systems
Tooling	Git, GitHub, GitHub Actions, Sentry, Vercel, AWS S3

PROFESSIONAL EXPERIENCE

Senior Frontend Developer

Shilsha Technologies | 04/2021 – 02/2026

- Key Driver Analytics AI Platform: Architected the full React.js frontend for an AI/ML safety analytics product — complex data visualisations, real-time model outputs, and configurable alert dashboards; reduced analyst report generation time by 60%.
- Customer Commerce Mobile App (React Native): Led end-to-end mobile development from Figma mockups — multi-vendor product catalogue, cart, order tracking, Razorpay/UPI payment flows, and push notifications via FCM; shipped to Play Store with 4.6★ rating.
- Seller Commerce Dashboard (React.js): Built a full-featured seller portal with inventory management, order fulfilment, sales analytics, performance scorecards, and bulk operations — onboarded 800+ sellers at launch.
- GenAI Document Assistant: Developed a React.js + FastAPI GenAI app allowing users to upload PDFs and query documents in natural language using OpenAI API and FAISS vector search; reduced manual document review time by 70% for enterprise users.
- Customer Behaviour Prediction AI App: Built the frontend for an ML churn-prediction platform — feature input forms, model confidence visualisations, cohort comparison charts, and exportable reports; directly contributed to a 22% reduction in customer churn for a pilot client.
- Established a shared component library and Figma-to-code design token pipeline used across all 5 product teams, cutting new-feature UI build time by 40%.
- Mentored 2 junior frontend developers; conducted weekly code reviews and pair-programming sessions.

Frontend Developer

Fodrix | 02/2020 – 03/2021

- Built and published a reusable JavaScript utility library that standardised cross-project functionality — adopted across 8 internal projects, saving an estimated 3 dev-weeks per quarter.
- Implemented Multi-Factor Authentication (MFA) with Google Authenticator and TOTP, hardening security for a B2B SaaS platform with 5k+ business users.
- Developed the customer management module in the Loop Dashboard using React and Redux — user profiles, segmentation filters, activity timelines, and bulk messaging UI.
- Built a React-based Shopify storefront POC integrating headless commerce APIs with a custom checkout and product configurator.
- Enhanced overall UX rating from 55% to 85% (internal NPS benchmarks) through Figma-led redesigns executed in React.js and React Native.
- Contributed to website development using React.js and Context API; improved Lighthouse performance score from 54 to 88.

Junior Frontend Developer

Freelance / Contract | 06/2018 – 01/2020

- Delivered 6 client websites and web apps using React.js, HTML5, CSS3, and vanilla JavaScript — sectors included education, retail, and local services.
- Built a school management portal with student attendance tracking, fee management, and parent notification system.
- Developed responsive landing pages and marketing sites achieving sub-2s load times via lazy loading and image optimisation.

SELECTED PROJECTS

- Key Driver Analytics AI Platform** — [React.js](#), [TypeScript](#), [Recharts](#), [FastAPI](#), [OpenAI API](#), [AWS S3](#)

AI/ML safety analytics dashboard with real-time model outputs, configurable KPI dashboards, anomaly alerting, and PDF report export. Reduced analyst cycle time by 60%.
- Seller Commerce Dashboard** — [React.js](#), [Redux Toolkit](#), [Tailwind CSS](#), [REST APIs](#), [Recharts](#)

Full-featured seller portal with inventory management, order fulfilment, sales analytics, and bulk operations. Onboarded 800+ sellers at launch.
- GenAI Document Assistant** — [React.js](#), [FastAPI](#), [OpenAI API](#), [FAISS](#), [LangChain](#), [AWS S3](#)

Natural-language document query tool — users upload PDFs and ask questions; answers grounded via vector search. Reduced manual review time by 70% for enterprise users.
- Customer Commerce Mobile App** — [React Native](#), [Expo](#), [Redux Toolkit](#), [FCM](#), [Razorpay](#), [REST APIs](#)

Multi-vendor shopping app covering catalogue, cart, order tracking, Razorpay/UPI checkout, and push notifications. 4.6★ Play Store rating.
- Customer Behaviour Prediction Platform** — [React.js](#), [Python \(ML pipeline\)](#), [TypeScript](#), [Recharts](#), [FastAPI](#)

Churn prediction frontend — feature inputs, model confidence visualisations, cohort comparisons, and exportable reports. Pilot client reduced churn by 22%.

AWARDS

- Performer of the Year (2023–2024)** 31/03/2024

Shilsha Technologies

Recognised for outstanding contributions across 3 concurrent product lines — AI platform, mobile commerce app, and seller dashboard — delivered on time with zero critical post-release bugs.

EDUCATION

- B.Sc** 07/2018 – 08/2021

Chaudhary Charan Singh University
- Intermediate (Science)** 04/2017 – 03/2018

Meerut Public School, CBSE

CERTIFICATIONS

- MaitY-NASSCOM Full Stack Development (MERN) — Government of India
- Frontend Development with React.js — Coding Ninjas
- Frontend Web Development — University of Michigan
- JavaScript Basics to Advance — Coding Ninjas
- Advance Front-End Web Development with React — Full Stack
- Data Structure in Python — Coding Ninjas
- Introduction to Python — Coding Ninjas
